

the Gables
GLORIOUS FOOD
GRACIOUS LODGING

Dear Couple,

Sincere congratulations on your engagement! You are both so lucky to have found one another. As you search for somewhere special for your wedding, The Gables may be your kind of a place. We have been the choice of many couples that want a different kind of wedding. People describe a Gables' wedding as "Magical", "Beautiful, loads of fun and amazing food", "Enchanting", "The food was delicious, the place was gorgeous...it was just the best!", and "Fabulous wedding, I wish it would never end".

The Gables is a fine old Victorian that's perfect for a romantic, distinctive and personal wedding. It's not a typical wedding or catering hall where everyone sits at a table for 12, people dance in the center and your conversation becomes drowned out by the Funky Chicken... The Gables is a beautiful background for a great event.

The Gables becomes your home.

Each dining room opens to another all facing the antebellum front porch. The garden with vine covered pergolas, a gazebo and fountain becomes the ceremony, cocktail hour space that transforms to a ballroom after dinner. The pergola closes for inclement weather. You and your guest are surrounded by beauty, lush plantings, and gracious furnishings. There's nothing that you need to hide, no acoustical tile ceilings, plastic lawn furniture, dried flowers, doilies, or pictures of long dead Commodores.
